

0=AFRICA geosector

This geosector covers 45 sets of languages spoken by communities across the African continent south of the Sahara, from West Africa to East Africa, and in Southwestern Africa. These sets comprise all languages of Africa not included in phylosectors 1=Afro-Asian, 3=Austronesian, 5=Indo-European and 9=Transafrican.

Zones 00= to 07= cover languages spoken in Africa's linguistic Fragmentation Belt, extending from Senegal in the west to Tanzania in the east.

00= **MANDIC** phylozone

03= **SUDANIC** phylozone

06= **KORDOFANIC** phylozone

01= **SONGHAIC** phylozone

04= **NILOTIC** phylozone

07= **RIFT-VALLEY** geozone

02= **SAHARIC** phylozone

05= **EAST-SAHEL** geozone

Zones 08= to 09= cover languages spoken in Southwestern Africa, in and around the Kalahari desert.

08= **KHOISANIC** (Central Khoisan)

09= **KALAHARI** geozone (North Khoisan+ South Khoisan)

Languages of zones 00= and 01= have constituted the Mande+ Songhai hypothesis, and languages of zones 01= to 05= the "Nilo-Saharan" hypothesis. Languages of zones 00= and 06= have been included in the "Congo-Kordofanian" or "new Niger-Congo" hypothesis (together with languages of phylosector 9=), and languages of zones 08= and 09=, and part of =07, have constituted the "wider Khoisan" hypothesis.

Additional or improved data on languages and communities covered by this sector will be welcomed by e-mail at sector.0@linguasphere.org; or by letter to Linguasphere Database (sector 0), c/o Hebron SA34 OXT Wales
